2005:

The second lecture in the above series was organized as part of ADCOM 2005, held at Amrita Vishwa Vidyapeetham, Coimbatore. The lecture was delivered on 15 Dec '05 by Dr. David K. Kahaner, Founding Director of the Asian Technology Information Program (ATIP). Dr. Kahaner has been examining Information Rich Technologies in Asia for many years. He was formerly the Associate Director of the US Office of Naval Research Asia (ONR). He also spent more than thirty years at the US National Institute of Standards and Technology (NIST) (formerly the National Bureau of Standards) and the Los Alamos National Laboratory. -- Photo

2006:

The third lecture in the above series was organized as part of ADCOM 2006, held at NIT-K. The lecture was delivered on 22nd Dec by Dr. Dharma P. Agarwal, OBR Distinguished Professor of Computer Science, University of Cincinnati, USA. Prof. Agarwal has made significant contributions to a number of areas of computer science, especially in Parallel System Architecture, Multicomputer Networks, Routing Techniques, Parallelism Detection and Scheduling Techniques and Reliability of Real-Time Distributed Systems. He has four approved patents and many more patents filed and pending in the area of wireless cellular networks. As the Chair of the Technical Committee on Computer Architecture of IEEE Computer Society in 1994, he started a new symposium on High Performance Computer Architecture which has become one of the most important meetings for the research community -- Photo
